

TO: Gregg Strakaluse, Director of Public Works
FROM: CANCAN KERN (EIN: 39-2261270)
SUBJECT: Pilot Program: 3 High-Accuracy SB 1383 Mystery Audits

Dear Mr. Strakaluse,

CANCAN KERN is offering the City of Bakersfield a 3-audit trial of our Vision AI Compliance System at zero cost.

As a local Food Recovery Organization (FRO), we have developed a 'Digital Twin' auditing process using Hybrid YOLOv12 + ViT models. This system identifies organic contamination in commercial bins with higher accuracy and lower safety risk than manual inspections.

The 3-Audit Trial will provide:

1. Detailed JSON metadata of contamination events.
2. Photographic evidence for Tier 1 & Tier 2 generator reporting.
3. A summary of diverted CO₂e impact.

We want to prove that CANCAN KERN can help the City satisfy CalRecycle Article 13 requirements more efficiently. Our status and credentials are live at <https://cancankern.org/id>.

Sincerely,
CANCAN KERN
